FireKing Turtle series 22"D four drawer fireproof file is constructed with specially formulated, asbestos-free gypsum-based insulation, oven-dried to reduce free moisture to less than 1/2%. Insulation is reinforced with 1" x 2" 14-gauge galvanized welded-steel wire; and insulation between all drawers makes each drawer a separate insulated container. All exterior steel panels are replaceable in the field in the event of minor damage. An environmentally friendly, electrostatically applied powder coating gives the FireKing Vertical File a scratch-, scuff-, and stain-resistant finish. A five-stage prefinishing treatment provides unmatched adhesion and rust resistance.
